

Traxxec Inc. and Stem Cell Assurance, OTC:TRXX.PK, announces completion of the final Phase of the Acquisition of Traxxec, Inc. and Corporate progression.

Stem Cell Assurance, Inc is pleased to announce that it has completed its final phase of conversion with the acquisition of Traxxec, Inc. To distance our company from the historical business we have amended our articles of incorporation with the State of Nevada to reflect the name change to Stem Cell Assurance, Inc., amended the annual report to reflect our new Board Members and Officers and begun the process of quote progression in line with the corporate plan with Stem Cell Assurance, its centers and healthcare line as the core business.

This underlines the corporation's current activity and intent of achieving fully reporting status to create the Stem Cell Assurance brand without encumbrance. We have also submitted to FINRA our applications for our OTC name change to Stem Cell Assurance, Inc. and for our new trading symbol.

All of these changes and our published corporate expansion program will be reflected in our audit and submissions as required for full reporting status. An announcement to reflect on the reporting status will be issued shortly.
